MEGHÍVÓ

European School of Oncology training course on

GYNAECOLOGICAL ONCOLOGY INCLUDING BREAST CANCER

Chairpersons: E. Kubista (A) and P. Bősze (H).

November 13-14, 1997

Venue: HOFBURG Vienna – Austria

NOVEMBER 13, 1997

Opening *Ernst Kubista* (A)

Management of preinvasive lesions of the cervix and vagina vulva (CIN, VAIN) *Stellio Rakar* (Slo)

Current status of the management of vulvar intraepithelial neoplasia *Gerald Gitsch* (A)

Current trends in the management of vulvar cancer *Michel Höckel* (BRD)

Current trends in surgical treatment of early stage cervical cancer *Péter Bősze* (H)

Current status of chemotherapy for carcinoma of the uterine cervix *Jan Vermorken* (NL)

Management of pelvic recurrence

The role of imaging techniques in the treatment planning *Attila Artnér* (H)

Surgical approach *László Ungár* (H)

The role of radiation therapy *Roberto Orecchia* (I)

Experience with CORT *Michel Höckel* (BRD)

The place of systemic therapy *Jan Vermorken* (NL)

Current trends in the management of resectable endometrial

cancer: The role of imaging techniques in the treatment planning *Attila Artnér* (H)

Management of high-risk patients *S. Leodolter* (A)

Management of early stage ovarian cancer *Stellio Rakar* (Slo)

Management of advanced ovarian carcinoma

Surgery *László Ungár* (H)

Chemotherapy *Henrich Salzer* (A)

Radiation therapy *Roberto Orecchia* (I)

Meet the faculty with a cup of coffee

NOVEMBER 14

Breast cancer (not yet finalized)

NOVEMBER 15

Genetics of gynaecological malignancies *Teresa Wagner* (A)

Clinical implications of familial ovarian and breast cancer *Péter Bősze* (H)

Discussion and Closing
